**TotalEnergies**

# Access to energy program at TotalEnergies

## Providing reliable and affordable solar solutions

TotalEnergies is active in more than 130 countries. The company puts sustainable development in all its dimensions at the heart of its projects and operations to contribute to the well-being of people.

Because energy is vital and drives progress, it must be available to everyone. However, this access is still a daily challenge for 759 million\* people who live without access to electricity. In this context, **our teams are committed to provide energy that is ever more affordable, clean, reliable and accessible to as many people as possible.**

In 2010, TotalEnergies launched the access to energy program and since 2018 we provide our own range of Sunshine solar solutions, in station or through partners.

Our objective:

**25 million** people impacted by 2025

# Sunshine range

Solar solutions that extend your day

## Why choose our solar solutions?

Essential products for the whole family

### A recognized brand

TotalEnergies is a reference in the energy field: recognized for its proximity to customers, its strong local presence and the quality of its service. Our expertise and presence in the solar solutions market have enabled us to sell more than 4 million solar products in over 30 countries.

### Product development based on customer needs

When developing solar products, we chose to focus on the essential: offering quality products at affordable prices. Our durable products offer strong performances and provide an alternative to less reliable traditional energy sources.

### Quality products

We are committed to provide durable and robust solutions: our products are tested by TotalEnergies' R&D teams and meet Lighting Global quality standards. All Sunshine solar products come with a warranty.

# Pocket Sunshine

## The light to take everywhere

The **Pocket Sunshine** is designed to be easily carried. Its small and lightweight design makes it easy to use. Its 2 brightness modes allow you to light up your activities for more than 7 hours.

**3x brighter than kerosene lamps**  
4x brighter than candles - *high mode*

Integrated solar panel

Easy charge!

360° rotation

## Specifications

High mode	40 lumens - 3 hours
Normal mode	20 lumens - 7 hours
Charging time	5 hours
Battery	3.2 V, 400 mAh, LiFePo4
Solar panel	0.3 W, 5 V, SunPower® monocrystalline

This product meets the **Lighting Global Quality Standards**

Pocket **Sunshine**

**7** hours  
of light - normal mode

Battery  
life span: **5** years

Robust: drop-proof  
and rain-proof

## Very practical!

For more light, hook it everywhere

**Hang it**

**Hook it**

**Carry it**

# Little Sunshine

## The robust and affordable solar lamp

The **Little Sunshine** combines convenience and robustness. Its integrated solar panel makes it easy to charge and provides continuous light for 8 hours. With its two brightness modes, this lamp can be used as a desk lamp or night light.

## Specifications

High mode	30 lumens - 3 hours
Normal mode	10 lumens - 8 hours
Charging time	6 hours
Battery	3.2 V, 500 mAh, LiFePo4
Solar panel	0.4 W, 4.5 V, monocrystalline

 This product meets the **Lighting Global Quality Standards**

Little Sunshine

**8** hours  
of light - normal mode

Robust: dust and  
UV resistant

## Lightweight and convenient

Place it

Hook it

Hang it

# One Sunshine

## The solar lamp to read, study and work

The **One Sunshine** is an all-in-one, easy-to-carry solar lamp with two brightness modes. Small and versatile, it can be used in many situations: placed on a table, hung on the wall or used outdoors.

### Specifications

High mode	30 lumens - 6.5 hours
Normal mode	10 lumens - 17 hours
Charging time	6 hours
Battery	3.2 V, 500 mAh, LiFePo4
Solar panel	0.4 W, 4.5 V, SunPower® monocrystalline

One Sunshine

**17** hours  
of light - normal mode

Removable  
metal stand

### Powerful and transportable

Place it

Carry it

Hook it

Hang it

# Family Sunshine

## The solar lamp that also charges your phone

The **Family Sunshine** is super efficient: its powerful light can light up your home for 18 hours. You can charge your phone with its USB port and check the battery level using the charge indicator. Multifunctional, it can be put on a table, hung from the ceiling or use to get around.

### Specifications

Turbo mode	300 lumens - 3 hours
High mode	240 lumens - 6 hours
Normal mode	80 lumens - 18 hours
Charging time	6 hours
Battery	3.7 V, 4100 mAh, lithium-ion
Solar panel	3 W, 5 V, polycrystalline
Accessory	USB charging cable

 This product meets the **Lighting Global Quality Standards**

Family **Sunshine**

 **18** hours of light - normal mode

Up to **300** lumens

 Robust: drop-proof and rain-proof

 Phone charger

### Multifunctional
